

E-Fiber Accessories

Modular electrospinning/electrospraying platform

EFA510 - Roll-to-roll Collection System

The Roll-to-roll collection System is a special accessory for E-Fiber EF500, designed for continuous nanofiber deposition on substrate roll. Recommended for pilot and industrial scale manufacturing, it is highly flexible and easy to use, allowing easy control over the linear speed value.

TECHNICAL DATA

Material	Plastic (PVC) + stainless steel plate
Weight	Approx. 10 kgs
Dimensions	550 x 600 mm (W x D) or 440 x 550 (W x D)
Dimensions of substrate roll	W: 300 - 550 mm (standard)
Linear speed range	110 - 940 mm/min
Polarity	Polarity connection [+/- 60 kV]
